CHICAGO MONDAY MORNING NOVEMBER 9 1857.

TERMS EIGHT DOLLARS PER YEAR.

A PILL FOR TAX-PAYRES.—Election being over, the Mayor and Common Council proceeded, last evening, to levy the taxes for the current year. In consideration of the hard times, our Democratic rulers were good enough to add only about one hundred per cent. to hat year's tax roll! We hope that our Democratic Taxpayers will enjoy the fun of footing this little bill.—Mil. Sentinel.

Own the .—The box containing the several articles deposited in the corner stone of the Chicago University has been robbed. It was found Saturday by two man, near the site to be occupied by the building, and where probably it was left by the villain who took it from its place in the masonry. The box had been broken open and nearly all the contents removed. They have not been found, nor has any clue yet been obtained to the perpetrator of the outrage.

ly stolen by some of the crew.

Arrest of Parties Implicated.

STOUNDING DISCLOSURES. NINE BODIES STOLEN.

During Saturday and Sunday the public was greatly excited by flying reports that Martin Quinlan, City Sexton, and a student at Rush Medical College had been arrested for robbing the cemetry of dead bodies, and that two hodies were actually found in their possession.

From the detectives of Allan Pinkerton, who were engaged in ferroting out the matter, and who

that the graves had been disturbed, and on examining them, found the bodies were removed. The coffins were byolem open, the bodies carried off, the the coffins replaced, and graves re-filled.

The grave-ligger communicated these facts to Mr. Wright, of the firm of Wright & McClure, undertakers, in La Salle street, and Mr. Wright informed Alderman Green, chalrean of the committee on public grounds, and who has the cemetery in charge. For reasons satisfactory to himself, Mr. Green declined to use the City Police in furreting

at instant, and the men in the buggy instantly jumped out and fled in different directions. The detective in charge of Quinlan knowing his man

The night was too dark to follow them, but one de

on who hired him. This description was found to be an exact at for Eli York, a medical student who was in Southern Hilliots. York was arrested, beought before Justice Millihen, and required to give ball in the sum of \$300, which he did, Dr. Ratinard, President of the Cellege, becoming his surery.

About half past II o'clock their waterminess warewarded by the approach of a buggy slowly and noiselessly moving along North avenue through the deep sand towards Clark street. After a hasty consultation it was decided that two of the detectives should follow the wagon and ascertain the business of those driving it while the other two continued the street. History under the fences, sometimes

Hard Times. Receipts at Tide-water.

[From the Albany Evening Journal, Nov. 3.]

The receipts at tide-water of flour, wheat, can and barley, or the fourth week of titubeer in 1805 and 1807, have been ea Bosron, Nov. 7.

Pursuant to a call in the papers, a large meeting of mechanics and laboring men assembled on the Common here this afternoon.

Several speeches were made and resolutions passed strongly urging the city authorities to take immediate measures to prevent from 2,000 to 3,000 people from actual starvation. Two large banners were displayed, on which was printed the following: "We ask not alms but work, that our wives and children may not starve." "Peace and good will is our motto."

Monday Morning Nov. 9, 1857.

Three years ago, when the banks were ex-unding their circulation in defiance of all the chantable commodities grown or manufactured in this country, as well as the prices of farming and and village and city lots, were going up balloon-fashion every time they changed own-ors, it might have been easily predicted that the consequences of the inflation and its at-tendant exaggeration of values would be just is severe and searching as we now know them o be. But the patent method of getting rich by swapping credits, by mutual and universal note giving, by doubling the nominal values of all we possessed, by issuing state bonds, which, in turn, served as the basis of bank issues, by poculation in lands that have little or no real orth, and in lots the value of which is prosective only, had intoxicated every body,— nuddied everybody's brains,—and there was the keenest competition on all sides to see who would go ewiftent and to the greatest length in the race of folly. All this was natural currency, of one hundred and thirty millions of California gold remaining in the country, to the stock of coin and builion on hand in 1850, of more than a thousand millions in stocks and bends to the paper credits axist-ing hardly ten years ago, would inevitably produce derangements and extravagances; and our only wonder is, now that the bubble has ourset and that we are again coming back to a more natural condition of trade, that the pan, ic, or pressure, or flurry, or whatever it may be called, is not more destructive and overwhelming than it is. We have danced so long to turns so merry, that the amount which we are compelled to pay the fiddler is surprisingly small. If the worst has come, and the improvement, as many contend, has begun, we are getting off astonishingly cheap.

Now the question is: "How are we to avoid such accesses and their consequences in the fire

Now the question is: "How are we to avoid such excesses and their consequences in the future?" The TRIBUMS, speaking for itself alone—not for any political party, or as the echo of fogy ideas of the necessity of going on hereafter as we have been going on hereafter in factors.

1st. Of a law of Congress taxing all bank notes of a less denomination than ten or twenty dollars, so heavily, that they will be withdrawn from circulation, and their places, in all the ordinary every day operations of trade, marketing, shopping, payment of wages and the like, filled with gold and silter coin, the only legal and constituand diver coin, the only legal and constitu-tional currency of the country. A few weeks go, in announcing the fact that a bill levying such a tax, would be brought forward in the nexi Congress, we ventured to suggest that the regulation of the currency should be left to the regulation of the currency should be left to the banks and business men, without the interfer-ence of the government; that a National Con-gress of Bankers and Merchants, would be able to invent the remedy which present disorders demand, and to introduce such method and re-gularity in the banking system, by means of a National Clearing House, or some other central lower, that the recurrence of present and ower, that the recurrence of present evila could be hereafter impossible. But enbequent effection on this vexed matter, and a more hat the bankers themselves will do, that, 'n a ord, we must fall back upon the government r protection, or be content to go the same giddy of the western world have arrived. We need try of the western world have arrived. We need and must have a greater proportion of specie in our currency. The common transactions should be based only specie; and it seems to us that the only way in which this great want our be satisfied, is by the measure which we propose. With no bank note of a less denomination than

Macoupin County.—In this county the Re-thlicans came very near electing their ticket, being beaten only 60 to 100 votes. In Carlinville the vote stood, Republican 316, Democrat

the Pro-Slavery ticket would have been wiped out. Macoupin county gave Buchanan 957 McDonorgy Co .- The Time boasts that the Democrats have carried McDonough. Well, suppose they did. Buchanan had a majority of

870, or nearly three to one over Freme ton stood Republican 296, Democrat 203.

WOODFORD Co.—We learn that the Demo ratio ticket was elected throughout in this

game; each side electing part of their ticket by small majorities. The county has heretofore

the result is still in doubt; contesting is talked about. This also has been a Democratic county. EDGAR COUNTY.—The contest was close and

the Times to the contrary. The city of Spring-field went Republican by majorities ranging from 60 to 175. The Republicans in the rural districts seemed to have forgotten when the election was to have taken place, else Sanga-non could have been carried by a large major-

A letter from Springfield informs us that Lawrence county has elected the Republican ticket, and that Ryan, Democrat, Assistant Clerk of the last House, was beaten for County Clerk, by 456 votes. Lawrence is an Egyptian county. It is one that the border ruffians can not well afford to loose.

ecting of the Sungry Sen in New York-The unemployed Germans and Irish, to the number of from 4,000; to 5,000, held another necting in New York on Thursday. They passed resolutions setting forth that they had passed resolutions secting form that they had arrived at the gloomy conclusion, that in this crisis, individual exertions could not procure employment or any means of sustaining life, and calling on the Mayor to provide work for

the unemployed and starving, on the contem-lated public works.

A number of speeches were made and some of the speakers were particularly vindictive against the wealthy. They marched in a body tion read, designed to be sent to the City Coun-cil, asking them to carry out the suggestion recently made by the Mayor. The Committee naving gaised admission to the Mayor's office, presented their petition. The Mayor read it, and said he would bring the Memorial of the mpkins Square meeting before the Common annil next week. Whereupon a Mr. Branza

Mr. Woop; —You propose to communicate our memorial only next week to the Common Gounell, against which intention we must protest with all our power. The people outside are hungry, and myself-the only protector of my family, with six children, being six weeks without working. We cannot wait so long in our present misory. Why has the Report on your Message not yet been published? The Common Council appointed long age a Committee of Fire, and gave them orders to make their report on or before the first of November. Now, Mister Wood, to-day we are on the noon of the 5th, and no report has yet been given. The people cannot wait any longer. * Their sufferings are cruel, and we cannot warrant that the people—their patience exhausted—should "help themselves" by employing physical power with its unavoidable brutalities. * He and his comrades, the Committee, had done all they could to keep the peace, but

se then left, and the meeting in front of the City Hall was adjourned to meet at the same ice next Monday. Another meeting, howevalth named William Bowins, in his

There were no doubt many who would help them, but some one was needed to show the rich that the poor were in want. Well then, to Wall street they sould go and proclaim their situation. The monied men amout shell out to the poor; and, if they would not the poor;

Gov. Walker Leaving the Territory nev

Gov. Walker left here some days ago, nom naily for Lawrence, but, as is affirmed, on roof for Washington, a la Geary. Tou will reco lect that when that gentleman left the Terr tary, he represented to his friends that he was going to Lawrence, but when he reachs that town he put out for Leavenworth, as thence to St. Louis, and finally for the capit Gov. Walker, it is said by pro slavery men, we are in the secrets of the government, has, by honest conduct in throwing out the Johns County votes, brought down the vengeance the strabismus eyed President and his cablin upon his bead. He is said to have recently gorders to repair to Washington, there to recei punishment for the only meritorious act be I performed while acting as Governor of Kans The fact of his having left this town, is, in

Kansas. You may rent assured that the fear of disturbance is the only one, that keeps the troops of the government in our Territory—Had the election turned out otherwise than it has, the great body of the soldiers would have been on their way to Utah.

I have reliable authority in stating that Walker's decision upon the fraudulent vote of Oxford presinct, has been denounced by the President and his cabinet, has in direct contradiction of his instructions, and the express understanding with the South. Walker has thus become a doomed man—a price is upon his bead—and I doubt whether he is personally asfe in Kansas. You may expect him in St. Louis it a day or two.

There is an opinion prevailing here, that the constitution which has been framed, will be presented to the people. I understand that those who have seen it, state that it will contain a slavery clause, which will make it objectionable to the free state men, and that it is entirely too liberal to meet the approval of pro-slavery men. You may rest assured that Kansas has not witnessed with indifference the lists efforts of the President and his cabinet, and his minions in Congress, to fasten apon her

hist efforts of the President and his cabinet, and his minions in Congress, to fusion upon her fair territory the curse of slavery. Let them do their worst; she will soon elect her own executive, and then the agony will be over, and doughfaceism and rufflanism still be banished from her borders.

P. S. -There is a wheel within a wheel, and George Sanders, of diplomatic notoriety, is now in the territory. What does it mean? In he to succeed Walker? You may hear of something important in a few days from Wash-

ish tongue, in this city.

Many of the leaders of the Republican party would likewise be imppy to see a consolidation of the Sentinel and the Free Democrat. It would naterially strengthen the Republican party throughout the State, to have but one organ here. Ar. Booth has just finished a spacious and elegant building, which would admirably serve for all the purposes of a united office of the Sentinel and the Pree Democrat. The combination would make a strong paper. Mr. Booth is not only an intelligent editor, but one of the best business men in the State—while Gen. King will always be a genial and popular editor, who knows how to win friends, event among those who are the opponents of his party. The Sachems of the Republican party, such as Gov. Eastford, Col Crocker, E. D. Holton, John H. Tweedy, Alexander Mitchell, William A.

ure had been prodigal, corrupt, ad had plunged the State into all ancial embarraments

....The Springfield Republican says that lovernor Gardner, and Mr. Beach have sudenty become the followers of Mr. Banks. He L. Tweedy, Alexander Mitchell, William A rentiss, Judge Howe, Senator Doclittle, &c. could wisely think of this matter now, and I hey should put their heads and their purses to other, they could bring about this consolidation. The times favor such movements. TheJones says that it is all folly for his friends to tell him he musn't increase his debts, when he is doing his utmost to contract them.

The Alton Courier of Nov. 6th, says:

"Judge Trumbull left this city for Washington on Tuesday afternoon. His family have been spending the summer in Connecticut."

INSULA TO THE QUEEK.—HARTHES MAGAINER OSTRACISED FROM CANADA.—At the monthly

Honey Batters in New York. Googs people on their notes have again invalidation in the March, there is a liberal spirit evinced at bank to renew most of the paper, or to discount for the payers an equal amount in other bills. The business of granting private extensions both at bank and among and between the Importers and Jobbers, is or daily occurrence, and although new names are occasionally mentioned as in trouble, no pains are taken to give them publicity. The spirit of forbearance has become pretity general. Occasionally we hear of suits being threatened or instituted, but these are the exceptions to the rule. Some of the early October fallures are likely to turn out better than at first anticipated. The bills of one or two of these houses are in request at 50 as0 cents on the dollar, each. For the paper of Messra, Bowen & McNames, (who propose to pay in an on their extended bills,) as much as of cents has been paid. We understand that Messra, Harper Brothers contemplate an early resumption of payments in full—N. T. These,

om their wages.

There was a depression of prices of beet cattle at Bull's Head on Wednesday that will warrant a corresponding reduction of beef upon the butchers stalls, since no one suppases for a moment that we shall return to the prices of the past Summer again, during the next year. The very best beef cattle sold at prices equivalent to 10 cents a pound for the meat, at which the quarter may be sold and leave the hide and fat for profit. A great many cattle of very fair quality sold at 9 cents, and none over 10 cents except they were rated premium or extra quality. And these prices are expected to continue by nearly all parties engaged in the business. It is therefore out of the question that city consumers should be obliged to pay 20c or any such sum for steaks and roasts. It is equally out of the question that country producers should expect as high a price for cattle fed upon corn at 12 or 15 cents a bushel as they obtained when they fed corn at 60 or 75 cents a bushel. The price of beef cattle is down, permanently down; the question now is whether consumers are to profit by it. N. Y. Tribine, Nov. 5th. .The London Times states that the steam er Canada, which arrived in New York on Wednesday, brought out bids to the amount of \$2,000,000 for the new 8 per cent-bonds of the Michigan Central Road, Issued for the purpose of extinguishing the floating debt.
... The work of extending and completing he Buffalo and Lake Huron Railway was parthe Burmio and L. he Huron Railway was par-tially suspended a few weeks since, on account of the difficulty in the foreign exchange mar-tet. Orders were received by the last steamer, rom the contralling stockholders in Europe, to ontinue the work, and prosecute it to completion. The necessary funds, in gold, are to be forwarded by the next steamer. The Directors are therefore employing laborers, and will con-tiane to employ additional ones, so that the

work may be completed by the first of January next. This will be good news for the laborers, THE ROCK ISLAND BRIDGE.—The Davenp. ... The bank paper circulation of the Unit d passages of steamers have been ma States at the present time is estimated as slows: Bills of a less denomination than five at the bridge this season, yet there has been n serious loss. Probably a dozen boats has touched the piers, but none experienced serio dollars, seven millions; of five dollars forty millions; ten dollars, thirtoen millions twenty dollars, thirty millions; and one hundred dollars and upwards, forty-five millions.

OTICE-DR. C. B. EGAN IS emale Physician and Midwi

wyer's Fluid Extract of B FEVER AND AGUE. BILLIOUS DISEASES,

Who that is drottofed with any of a stroke dis-agreeable complaints, such as Jaundine, Dyspensia, or larer diseases of any kind, but would like to know of a remody for these massempty visitations? We feel, that we can induce them to get a bottle of Dr. Sarvani's Invancago, and take it, for we know from personal experience, that it to one of the greatest remodles for general debitty, and consequent inactive holily powers, over before used, if a colon is no perfect and complice as to give relief restriction taken, and if it does to others as it has to us, he can recommend with such coaded. We know of nothing we not recommend with such coadedness, as a family madesian. ger Dyspepsia, in all its various forms of

inte article which we copy below:

There rumains, then, but this alternative—Hard Money, Cash Payments and Prec Trade—for we assume that a mere reconstruction of our late Paper Money and Mercautile Credit system is suit of the question. Rad capitalists will not invest their means in banks of issue organized as at present and subject to the parits which shave just overtaken and wrecked us. Since we cannot have Protection, we must try the effect of such approximation as is altainable to a Specie Currency. We do not speak off as essentially currence out an papably inevitable. We cannot keep on drifting around Point No-Point; we must have a policy and a substentially uniform Currency. Bank notes that are 10 percent discount in other irredeemable paper hardly five hours ride from their place of issue, may be fair shipplasters; but they do not form a real Currency. We must have semething better than this—or mothing.

A very large and probably at this time increasing class among us regard Herd Money and Low Prices as the-true antidote to or current evils, financial and industrial; and the present President of the United States, when a U. S. Senator from Pennsylvania, enunchated this sentiment:

"Reduce our nominal to the standard of real prices throughout the world, and you cover the Nation with bleasings."

We do not believe this as an abstract proposition;

Hedince our nominal to the standard of real prices throughout the world, and you cover the Nation with bleasings."

We do not believe this as an abstract proposition; indeed, we are sure that we can afford a better paper at the same price with Flour at \$7 per barrelin this city than we could with that asme flour selling at \$3, and other staples in proportion. We have faith in the good old maxim "Live and let live," and do not believe the laboring class of this country will ever be so well recompensed by low wages as they have been by high ones. But this is an excellent time for trying experiments, since we have "fallen too low to dread a second fall." and we trust the Hard Money men, if such there really be, will now put their principles into practice wherever they may have power. If Hard Money be the true pances for our social life, let us have it vigorously administered at once. We, at all events, will throw no obstacles in the way of a full and fair trial of the experiment.

Wood & Coal.

THE UNDERSIGNED BEG LEAVE TO inform the citizens of Chicago and vicinity, that they are informed to the different qualifies of the enterpolar of the citizens of the citizens

DAILY ARRIVAL OF 100 TONS.—THIS coal will compare favorably with the best coals in the same analysis, date as failures in filtered, of Take College, in Your coal is of superior quality for the production of team. We have used the coal to an open grate for every as you and fail is parfectly despited for that use. It besens to comparatively small quantity of ashes, without particularly in the production of the particular state. Among the many advantages are not placed in the market. Our daily lat. The coal is one of the best in the market. Our daily lat. The coal is one of the best in the market.
